**DETAILED ACTION**

**Withdrawal of Finality**

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.
2. The Amendment filed by Applicant on 3/10/06 has been entered.
3. Claims 39-43 and 59 have been canceled.

***Response to Amendment/Arguments***

4. Applicant's amendment and arguments filed on 3/10/06 have been fully considered and they are found unpersuasive.
5. The rejection of claims 33-61 under 35 U.S.C. 103(a) as being unpatentable over Ninomiya et al., EP 0 930 339 A1 (hereinafter "Ninomiya I") in view of Ninomiya et al., EP 0 892 006 A2 (hereinafter "Ninomiya II") and Dombroski et al., U.S. Patent No. 4,547,329 (hereinafter "Dombroski") is withdrawn.

### ***Double Patenting***

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

7. A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

8. Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

9. Claims 33-38, 44-58, 60 and 61 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 and 6-17 of U.S. Patent No.

6,838,029. Although the conflicting claims are not identical, they are not patentably distinct from each other because the steps of present invention are substantially identical to the

Art Unit: 1713

processes of U.S. Patent No. 6,838,029. Essentially, both claimed inventions are directed towards a process for producing EVOH in an extruder wherein water is added or removed from the extruder followed by discharge and washing of EVOH with prescribed water content.

10. Claim 33 is rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 of *U.S. Patent No. 6,743,891*. Although the conflicting claims are not identical, they are not patentably distinct from each other because the steps of present invention are substantially identical to the processes of *U.S. Patent No. 6,743,891*.
